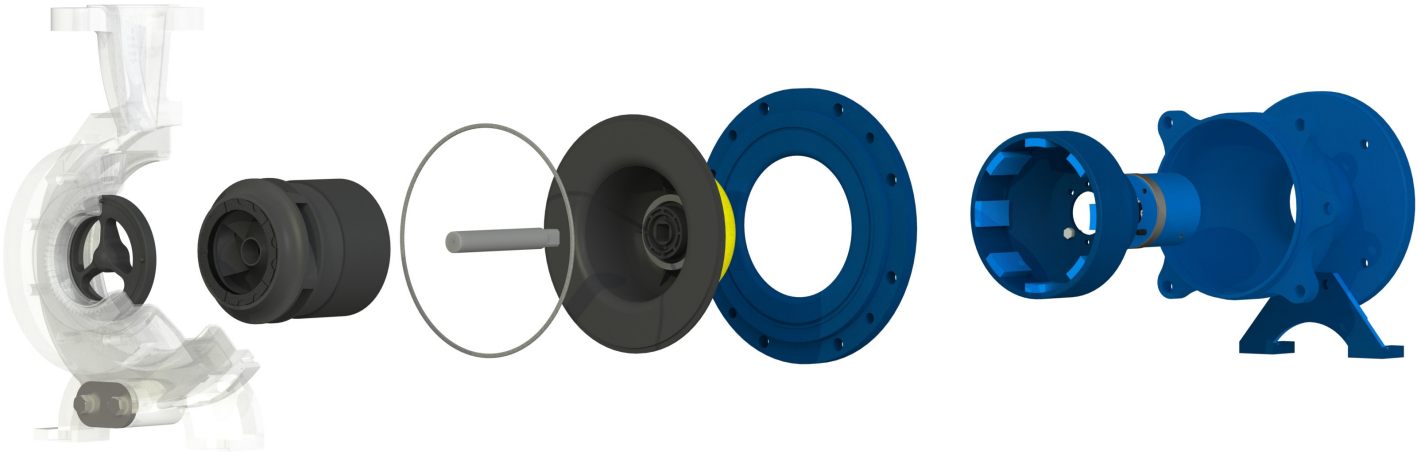
ULTRACHEM® SERIES
PUMP REPAIR CARTRIDGE OPTIONS

Finish Thompson makes it easy to repair ULTRAChem® Series pumps in the field, all at a lower price than offered by competitors - up to a 40% savings.

We even include items not included in some competitors' packages, like the front shaft support and silicon carbide thrust ring on wet ends without the housing, the ductile iron motor adapter on pumps without the housing, and the 316 stainless steel drain cap and gasket on ALL packages, further increasing the value.



CARTRIDGE OPTION 1: WET END WITHOUT CASING

Contains all of the wetted parts except the casing. Also includes the front shaft support & thrust ring, clamp ring, drain cap & gasket and hardware.

Recommended when a catastrophic pump failure occurs, where the rear barrier hasn't been breached and the pump's outer magnets and motor remain in good condition but the other wetted components have been damaged with the exception of the casing.

CARTRIDGE OPTION 2: PUMP END WITHOUT CASING

Complete pump without the casing or motor, unlike other competitors that only include the outer drive and shaft adapter our package also includes the motor adapter, the casing stainless steel drain cap and gasket.

Recommended when catastrophic pump failure occurs, where the wetted components have been damaged, the rear barrier has been breached and the pump's outer magnets have been damaged but the casing is in good condition.
